

↑ Oxygenated blood enters the heart via the superior and inferior vena cava.

→ The heart pumps oxygenated blood to the body via the aorta.

Left Atrium → Left Ventricle
Right Atrium → Right Ventricle

Heart Anatomy

1) Epicardium (心外膜)

- Epicardial Adipose Tissue (心外膜下脂肪)
- Left & right coronary artery (左・右冠状动脉)

2.) Myocardium (心筋)

- Left ventricle (左室)
- Cardiocytes (心筋細胞)

3.) Endocardium (心内膜)

1.) Superior Vena Cava

↑ 血液中の O_2 含量が高くなる → Right Atrium

2.) Inferior Vena Cava

↑ 血液中の O_2 含量が高くなる → Right Atrium

3.) Pulmonary vein (肺静脈)

→ Left Atrium
↑ 血液中の O_2 含量が高くなる

4.) Pulmonary Artery

↑ 血液中の O_2 含量が低くなる
Right ventricle
↓ 血液中の O_2 含量

3.) Endocardium = 心内膜

↑ 二尖瓣 (mitral valve)

Tricuspid, Bicuspid valve
↑ 三尖瓣 (tricuspid valve)
↑ 二尖瓣 (mitral valve)

Atrioventricular valve (AV valve)

4.) Aortic semilunar valve, pulmonary semilunar valve

↑ 主动脉瓣 (主動脈瓣)
↑ 肺动脉瓣 (肺动脉瓣)

= Semilunar valve
